

TalkPro™ B1000 Wireless PC Headset System

Wireless and accurate. The family of VXI TalkPro headsets deliver reliable accuracy and consistent performance with speech recognition software applications. These powerful attributes can now be enjoyed wirelessly with the VXI BlueParrott TalkPro B1000, a wireless Bluetooth headset designed specifically for use with speech recognition applications.

Professional grade Bluetooth headset.

Superior noise canceling microphones, same as found on all VXI TalkPro headsets, deliver accurate results. Unlike other Bluetooth headsets, that are meant for mobile phones, the BlueParrott TalkPro B1000's microphone boom design ensures proper microphone positioning - delivering consistent speech recognition performance. In addition, the comfortable TalkPro B1000 transmits up to 75 feet with clarity and wireless freedom.

Set up is simple. USB plug and play connectivity means installation is simple, straightforward and fast. Enjoy wireless, handsfree communication with PC applications with the VXI BlueParrott TalkPro B1000.
