

## TalkPro B150-GTX Wireless Computer Headset

**Wireless and accurate.** The family of VXI TalkPro headsets deliver reliable accuracy and consistent performance with speech recognition software applications. These powerful attributes can now be enjoyed wirelessly with the BlueParrott TalkPro B150-GTX, a wireless Bluetooth headset designed specifically for use with speech recognition applications.

**Professional grade Bluetooth headset.** The superior noise canceling microphone, same as found on all VXI TalkPro headsets, delivers accurate results. Unlike other Bluetooth headsets that are meant for cellular phones, the BlueParrott TalkPro B150-GTX microphone boom design ensures proper microphone positioning - delivering consistent speech recognition performance. In addition, the comfortable TalkPro B150-GTX transmits up to 33 feet\* with clarity and wireless freedom.

**Set up is simple.** The TalkPro B150-GTX easily pairs to computers with embedded Bluetooth and/or to commercially available Bluetooth dongles and adapters. Installation is simple, straightforward and fast. Enjoy wireless, handsfree communication with computer applications with the VXI BlueParrott TalkPro B150-GTX.

Includes Auto and AC Charging Cords
